

Before submitting your report, please check the similarity index using the following link : <https://www.turnitin.com/>. You must have received an invitation to create a turnitin account. The similarity index should not exceed **21**. When submitting the report, include the turnitin report and similarity index as well. You need to follow these steps to create a **turnitin report**:

1. Create an account on <https://www.turnitin.com/>. Each of you may have received an invitation.
2. Log in to the account, where you will find Web Mtech class (WMT2527 for 2025 batch students) created by Prof. Sridharakumar.
3. Click on the class and you will see a submit button on the right side. Click on it and follow the instructions to submit your report.
4. When you return to the assignment list, you can view your similarity index value in the similarity column.
5. Click on the value, and you will see the report.
6. If the similarity index is below 21, click on the download button and download the current view to submit it with your report.
7. Otherwise, work on your report and resubmit it again.
