

# MTech and PG Diploma Projects

Sridharakumar Narasimhan and Nirav Bhatt  
Program Coordinators

22nd June 2026

Department of Data Science and AI,  
Indian Institute of Technology Madras  
India

MTech Industrial AI Project

PG Diploma AI Project

# MTech Project: Overview

## MTech Project (95 Credit)

- **Term IV - Phase I: 25** (1 Credit = 50 minutes, 21 hours/week)
- **Term V - Phase II: 35** (1 Credit = 50 minutes, 30 hours/week)
- **Term VI - Phase III: 35** (1 Credit = 50 minutes, 30 hours/week)

| Submission type    | Submission deadline           | Feedback                                           |
|--------------------|-------------------------------|----------------------------------------------------|
| Project particular | 15 <sup>th</sup> July, 2026   |                                                    |
| Project proposal   | 11 <sup>th</sup> August, 2026 | 7 <sup>th</sup> - 11 <sup>th</sup> September, 2026 |

# MTech Project: Timeline

| Term                                                                        | Report Submission         | End Term Evaluation |
|-----------------------------------------------------------------------------|---------------------------|---------------------|
| 7 <sup>th</sup> Sep 2026 - 20 <sup>th</sup> Dec 2026<br>(Term IV - Phase I) | 26 <sup>th</sup> November | TBA                 |
| As per the term dates<br>(Term V - Phase II)                                | TBA                       | TBA                 |
| As per the term dates<br>(Term VI - Phase III)                              | TBA                       | TBA                 |

# MTech Project: Important Guidelines

- **Mentor**
  - Your immediate boss/As per the CODE rules for exceptional cases subject to approval from the DSAI coordinators
  - He needs to have AI/ML and Domain expertise
    - Either have 1 mentor with both the expertise, or 2 mentors with separate expertise
  - Require Linkedin information or CV of mentors
  - Should agree to attend the respective Learner's viva sessions
- **If viva is missed, it cannot be rescheduled**
  - will be done in next viva session
- **If examiner is not satisfied with the work**
  - Learner has to incorporate feedback of the examiners to upgrade the work
  - Evaluation will be done during next viva session
- **Evaluation will be done by two-three examiners**
- **Problem changed without informing us will not be considered for viva**
- **Any change in mentor should be informed**

# MTech Project: Learner Responsibilities

- Earn MTech credits
- Update Mentor regarding project
- Attend weekly meeting with the mentor
- Maintain work log for project work
- Inform mentor about the project progress or personal issues
- Plagiarism and AI generated report will not be tolerated . AI can be used to improve grammar or sentence structures.

# **MTech Project: Industry Mentors Responsibilities**

- Help define the research problem for the Learner
- Provide inputs and advise on research work
- Get Learner update on the progress
- Correct reports and feedbacks for presentations
- Ensure Weekly meeting with the Learner
- Attend the viva of the Learner
- Help learner understand methodology and fundamentals related to the project

# MTech Project: Project Particular and Proposal

- Project Particulars : A form will be shared
- Project Proposal
  - Template will be provided
  - Turnitin report
  - Proposal should contain clear problem statement and objectives, dataset and its availability, suitability of the data for the problem and dataset description
  - Should contain the resource requirements and their availability
  - Should contain comprehensive literature review and tentative methodology
  - Should contain execution plan and expected output
  - Should contain milestones to be achieved in next two months

# MTech Project: Report

- Project proposal
  - Post acceptance of project proposal
    - Extension of project proposal with preliminary literature survey
      - At least 10 research papers to be included
    - Should contain preliminary data analysis
    - Tentative methodology and include feedback of examiners
  - Rejection of project proposal
    - Revise the project proposal including examiner's feedback
- End Term Report
  - Post acceptance of project proposal
    - Use IITM template to write the report
    - Turnitin Report
    - Chapters include - Introduction, Literature survey, Problem Statement, Methodology, Data Analysis, Timeline, References
  - Rejection of project proposal
    - Submit revised project proposal

# MTech Project: Our Expectations at The End of **Term IV - Phase 1**

- Learner has a strong use case of the problem
- has demonstrated conceptual clarity and proper understanding of a well defined problem
- understands the requirement of resources and their availability
- has good understanding of the data
- knows the current state of the art
- knows which AI models are feasible to implement
- has given methodology based on the current state of art and understanding of the problem

# MTech Project: Next Sessions

| Session | Topic                                                     | Date                                |
|---------|-----------------------------------------------------------|-------------------------------------|
| 2       | How to search and read research papers for your problem?  | 6:00 pm, 6 <sup>th</sup> July       |
| 3       | How to write project proposal and create turnitin report? | 6:00 pm, 13 <sup>th</sup> July      |
| 4       | How to write end term report?                             | 6:00 pm, 7 <sup>th</sup> September  |
| 5       | Submission Instructions                                   | 6:00 pm, 14 <sup>th</sup> September |

## MTech Project: Our Expectations at The End of Term V - Phase 2

- Learner has evaluated methods, justified and refined methodology based on the results obtained by using different metrics
- has completed data analysis and has given insight of data
- has good understanding of the methodology
- knows what experiments should be performed to evaluate the methodology
- has good understanding of the data and approaches required for the problem

## MTech Project: Our Expectations at The End of **Term VI - Phase 3**

- Learner demonstrates a good understanding of the proposed methodology
- Learner has performed all the proposed experiments required to evaluate the methodology
- Learner demonstrates a good understanding of the data
- Learner has compared the present approach with other relevant/baseline approaches
- Learner has performed error analysis and an ablation study to assess the contribution of individual components and demonstrate the robustness of the methodology

# PG Diploma AI Project: Overview

## **MTech Project (15 Credit)**

**Term IV: 15** (1 Credit = 50 minutes, 13 hours/week)

**Problem Statements & Datasets : 28th August, 2026**

| <b>Submission type</b> | <b>Submission deadline</b>       | <b>Feedback / Evaluation</b> |
|------------------------|----------------------------------|------------------------------|
| Project Methodology    | 15 <sup>th</sup> September, 2026 | 30th September, 2026         |
| End Term Evaluation    | December 2026 (TBA)              | December 2026 (TBA)          |

# PG Diploma AI Project: Important Guidelines

- Dataset along with problem will be provided
- The learner will design and implement a solution and evaluate its performance using suitable metrics.
- **If viva is missed, it cannot be rescheduled**
  - will be done in next viva session
- **If examiner is not satisfied with the work**
  - Learner has to incorporate feedback of the examiners to upgrade the work
  - Evaluation will be done during next viva session
- **Viva panel**
  - One or Two examiners
